VSNMini 300

Compact Video Wall Controller

SCALABLE CAPTURE AND DISPLAY

The VSNMini 300 provides a modern, compact solution for powering multi-output video walls for meeting rooms, retail environments, and small-scale control room installations. With three PCIe slots, the VSNMini 300 can be preconfigured with Datapath Image graphics, Vision capture, and SQX IP decode cards for your specific project requirements.

SMALL SIZE, BIG PERFORMANCE

With its slick form factor, the VSNMini 300 is designed to be space conscious for easy installation into any environment. It supports modern technology standards including 12th Generation Intel Processors and NVMe SSD storage for maximum performance.

RELIABILITY

As with all Datapath VSN systems, the VSNMini 300 uses long-life industrial grade components to provide the reliability and dependability needed by today's mission-critical control room environments.

COMPATIBILITY

The Datapath VSNMini 300 is compatible with Windows 10.
